It is with heavy heart that we announce the postponement of our Annual National Conference, as well as all local and virtual walks. The evolving SARS-COV2 pandemic has placed tremendous strain on our patients, families, and community, and has made it impossible for us to move forward with plans to host these events in person.

We are also asking that you submit questions in advance for some of our panels. We will use these questions as part of our planning for future panels, so we encourage you to think about the topics you would like to see discussed.

We are working with our partners, and NTT, to provide one-on-one support to our community. Please stay tuned for updates on how we will continue to provide support.

We know that many of you have questions about how to stay connected during these challenging times. We encourage you to engage with our Support Groups, which remain active and thrive online. We also recommend following our social media channels for updates and support.

We are looking for your input to help us strengthen our community. We are asking you to submit questions for the “Ask the Professionals” panel. We hope to see you soon!
