Descartes-08 CAR-T Cells in Generalized Myasthenia Gravis

Study Purpose: This is a Phase Ib/IIa study to evaluate the safety and preliminary efficacy of Descartes-08 CAR T-cells in patients with Generalized Myasthenia Gravis.

Recruitment Information:

Study Type: Phase Ib/IIa, open-label, interventional study.

Status: Recruiting

Target Patient: Patients with treatment – resistant, generalized Myasthenia Gravis

Eligible Ages: 18 years and older
